Invited Presentations and Visiting Professorships

1. Dolan JG. The Analytic Hierarchy Process. Short Course presented at annual meeting, Society for Medical Decision Making, October 1992.

2. Dolan JG, Bordley DR. Developing clinical practice guidelines: A skill builder for physicians and medical clinicians. Workshop presented at the Sixth Annual National Forum on Health Care Quality. Joint Commission on Accreditation of Healthcare Organizations October 1993.

3. Visiting Professor - Youngstown Decision Making Group. November 1993.

4. The role of the Analytic Hierarchy Process in Medical Decision Making Presented at the Lister Hill Policy Center, Birmingham AL, September 1994.

5. Faculty member: Cases in the diagnosis and management of chest pain in women: An evidence-based approach. Workshop presented as part of The heart of a woman: New developments in women and heart disease. Recourse presented at Annual meeting Society of General Internal Medicine, May 1997.

6. Dolan, JG. An introduction to multicriteria methods in medical decision making. Short course presented at annual meeting, Society for Medical Decision Making, October 2002.

7. Dolan JG. An introduction to multicriteria methods in medical decision making. Short course presented at annual meeting, Society for Medical Decision Making, October 2003.

8. Dolan JG. An introduction to multicriteria methods in medical decision making. Short course presented at annual meeting, Society for Medical Decision Making, October 2004.

9. Dolan JG. An introduction to multicriteria methods in medical decision making. Short course presented at annual meeting, Society for Medical Decision Making, October 2005.

10. Dolan JG and Fraenkel L. Preference assessment models: Conjoint analysis and the Analytic Hierarchy Process. Short course presented at annual meeting, Society for Medical Decision Making, October 2006.

11. Dolan JG. Keynote address: Shared decision making, transferring research into practice: the Analytic Hierarchy Process. 4th international meeting on shared decision making, Freiburg Germany, June 1, 2007.

12. Visiting Faculty Member, Summer Institute in Informed Patient Choice, Dartmouth College, Hanover NH, June 27, 2007: "Applied perspectives on the Analytic Hierarchy Process".

13. Dolan JG and Fraenkel L. Preference assessment models for MDM: Conjoint analysis and the Analytic Hierarchy Process. Short course presented at annual meeting, Society for Medical Decision Making, October 2007.
